INTRODUCTION

This machine is specialized to drill slaps for wall cladding. It's operated by one worker. The worker places the slap on the machine, and the machine drills the slap in programmed positions.

FEATURES

- Dimensions
1200mmX1200mmX100mm
- Dry and liquid cooled drills
- Height adjustment
- Electronic control of the hole position
- Inverter driver spindles (viber speed)
- Pneumatic adjustment for drilling force

SPECIFICATIONS

Spindles	1KW
Drill holder	1/2" gas
Drive motor	0.37 KW
Overall power	3 KW
Weight	600 kg
